증례 (**or** 수술술기) : There is no report on the effects of noninvasive positive pressure ventilation (NIPPV) on neuromuscular scoliosis patient during the perioperative periods. The aim of this study is to assess the effects of NIPPV through evaluations of outcomes and incidences of post-operative pulmonary complications among patients with flaccid neuromuscular scoliosis for pulmonary support in the perioperative periods.

**acknowledgment :**

neuromuscular scoliosis, restrictive lung disease, noninvasive positive pressure ventilation (NIPPV)
